Great show. Wonderfully creative way to bring improv alive through a digital forum. Velvet's Djinn has something for everyone.

An incredible show! I've never been given so much by any one online performance. Gather.Town is an excellent space for interactive performance, and our favorite Djinn's sweet serenades made every second stupendous. Come ready to turn your camera on (and press your 'Z' key to dance)!

This was so beautiful and fun. Really helped to pull me out of a sneaky self-hate spiral. Love this for the world. Thank you.
