

Silent Partner

A narrative improvisational exploration of silence to affect scene pacing and focus. Beyond dramatic stories, we'll treat silence like another scene partner, as well as sitting in silence with our reactions and interactions. This is a focused, skill drill-down in talking less (or more, if you're the quiet one) for fuller character conversations

Agenda*

Introductions & Consent Informed Space

1. Engage the sounds and silence in our environment
2. Practice giving focus to the quietest character
3. Play with verbal limitations to focus our emotions and intentions
